

**I thrive on the challenge of working with diverse disciplines to develop solutions that conserve heritage values while facilitating the on-going use of sites for owners.**

## **Susan Lampard** Senior Associate

Susan Lampard has over 23 years' experience in the cultural heritage industry, specialising in historical archaeology and built heritage.

She has undertaken historical heritage significance assessments, impact assessments and conservation advice for places of local, State, National and world heritage significance under State and Commonwealth legislation. Susan focuses on the provision of heritage advice to Commonwealth agencies, particularly Defence.

Susan has experience in preparing reviews of environmental factors, environmental impact statements and statements of heritage impact reports under New South Wales legislation. She is also skilled in the writing of archaeological assessments and undertaking archaeological test excavations and monitoring, holding multiple section 140 and section 60 excavation permits.
